

STI Integral Cover

PRODUCT OVERVIEW

The clear Integral Cover fits directly onto the STI ReSet Call Point, Waterproof ReSet Call Point and StopperSwitches. Moulded from tough, clear UV-stabilized polycarbonate, it can withstand tough knocks while protecting the unit from vandalism, damage or accidental activation. The Integral Cover will protect units from minor damage or tampering, consider the Euro Stopper or Universal Stopper if more adequate protection is required. It easily attaches to moulded slots on the sides of the products.

MODELS AVAILABLE

STI-CI Integral Cover for STI ReSet Call Points and StopperSwitches

KEY FEATURES

General Information

- The clear Integral Cover fits directly onto the STI ReSet Call Point, Waterproof ReSet Call Point and StopperSwitches.

Design

- Designed to fit STI ReSet Call Points and StopperSwitches only.

Installation

- It easily attaches to moulded slots on the sides of the products.

Options

- For further protection from damage and tampering to Call Points and Switches, it is advised to cover your unit with a Euro Stopper or Universal Stopper - both models are available with or without an integral sounder and are available in a number of colors to best suit your application.
